

## **ENVIRONMENTAL POLICY STATEMENT**

J and T Group takes a close and responsible interest in, and respect for the physical, economical and social environment, on all projects in which we are involved. We consider the appropriateness of our actions a high priority in respect to the nature of our activities. The scale of the environmental impact that our processes and services that we provide are always taken into consideration.

We aim to contribute towards environmental improvement and sustainable development by using initial precedence such as best practice and new innovative techniques. Environmental issues are assessed at every stage of procedures and through audit and examination; we ensure compliance with regulatory requirements and in many cases, we aim to exceed these requirements.

We aim to ensure that all parties whom may be affected by our operations are made aware of this policy and where possible we aim to develop tailored environmental solutions in conjunction with the relevant groups. These parties may include:

- Clients
- Local Stakeholders
- Designers
- Sub - contractors

### **British Standard**

J and T Group operate in compliance with an Environmental Management System that fully satisfies the requirements of ISO 14001 which ensures that in conducting its activities, J and T Group will:

- Comply with all legal requirements, as a minimum standard
- Consider environmental impacts and sustainable options at all stages of the relevant working processes.
- Prevent pollution and protect both the natural and the build environment
- Reduce the effects of noise, dust, disturbance and convenience arising from its activities.
- Use raw materials and resources (such as energy and water)
- efficiently, through correct use, handling, storage and preservation.

- Further minimise waste through re-use or recycling and safely transport and dispose of waste.
- Respond promptly to any complaints from third parties
- Engage with customers and professionals, regulatory and institutional organisations to help raise environmental standards.
- Actively involve employees, partners, sub-contractors, suppliers and designers in promoting and improving our environmental performance.

This policy will be brought to the attention of all employees, made available to the public on request and reviewed on an annual basis.

At J & T Group, we consider that environmental issues are not everyone else's responsibility; they are our responsibility.

We relentlessly pursue our commitment to continuous improvement and the prevention of all types of pollution. We consider the ISO 14000 series of standards as the framework to which we carry out all our day-to-day operations.

Our environmental policy provides a framework for setting and reviewing environmental objectives. We also continually evaluate our targets in our pursuit of efficiency and excellence.

We ensure that all of our staff participates in implementing and maintaining our objectives.

We are a quality-orientated group, committed to providing a clean, waste free environment for ourselves and for generations to come.

James Curran  
Group Director
